With reference to your letter Rec.No.13113-45-A.3 dated 22-4-46, o write as below, point by point:

The plan of instituting the scholarships as loan scholarships has been adopted to enable the benefits to increase progressi in value and number as time goes on as per rule 17. Further, facts that (i) part of the income, the cash prize, is given outright, (ii) no interest is to be charged, (iii) there is option in special cases to waive payment and (iv) help even the form of an advance or loan at a time of need is provided without motive of gain or profit, entitles the scheme to be considered a charity.

understand that Government securities are not the only securities recognised as Trustee Securities, since Municipal Debentures, Government Guaranteed scrips and such like are a included. The best course, in our opinion, is to invest in s of the above securities as will give the best return while n giving up chances of increased income if interest rates wer rise above the present low values. We have already suggeste that if any special terms for deposits of charitable funds b available with Government, they may be availed of, unless th terms cannot be made to apply to this Fund.
An additional sentence may be inserted in rule 7 after the w 'Maximum', viz, 'In case of a tie between two or more candida qualified as above, the value of the prize shall be divided equally among them.'
A cash prize waw decided upon as being useful to the student immediately. Its usefulness, say after 12 years, when the winner would no doubt be employed, would be very much less i proportion. We feel that it

Regarding the above document, I wish to state that the scheme was accepted by both parties after careful consideration, as meeting the wishes of the donors. We wish the matter closed as early as possible and the benefits do not with-held from --- candidates too long. However we are agreeable to split the fund and

1. Set apart a sum which will give an annual income of Rs. 20/- as a prize fund, the rules already accepted for the prize being applied to this part of the fund.

2. Deal with the balance as scholarship fund. We prefer the scholarships to be on a loan basis, since this will

i. enable larger amounts to be paid out per year than is possible if the small interest at present low rates be available.

ii. cause steady growth of the fund, so as to increase the benefits.

We know of serveral funds which grant scholarships on loan basis, such as the Tirumbal Subba Rao fund at Mangalore and others and do not quite see why there is any objection to this fund being on a loan basis. On this basis, we could increase the amount drawn to Rs. 100/- per year and expect loans to fall in 5 to 6 years. Any change in the rules with this in view would be acceptable and the fluid reserve would not be required.

Copy of letter dated 13th November 1948 from Sri A. Venkata Rao, Talang, addressed to the Special Officer, District Board, S.Kanara.

With reference to your No.13113-45-A3 dated 29-10-48, I wish to state that the B.R. Memorial Committee was dissolved soon after the funds were transferred to the President, District Board, South Kanara under an agreement, and it is difficult for me now to contact the members. However, in view of the difficulty in carrying out the scheme of loan scholarships referred to in your earlier communications, I may request you to drop the idea of loan scholarships in favour of outright gift scholarships. The necessary modifications in the rules may be made and a copy of the final set of rules, which would necessarily be very much simplified, may be sent to me.

I wish to know what rate of interest will be allowed on the endowment, as we had planned to have at least a cash prize of Rs.20/- and a scholarship of Rs.50/- per year i.e., Rs.70/- a year In case 4% interest may be expected the fund has to be made up to Rs.1750/- to get the above Rs.70/- per year. I had remitted Rs.1615/- as the balance of the fund nearly three years ago, and if interest has been earned in the interval, the amount will not be far short of Rs.1,750/- In any case, to secure an income of Rs.70/- a year, if it is feasible on a capital of Rs.1750/- I am prepared to contribute such amount as will bring up the fund to Rs.1750/- Please therefore let me know how matters stand.

2. It is proposed to invest the amount of Rs.1612-15-0 in any of the Government Securities which are readily available in the market as is seen from the letter Ref.Sec.15/9/1383 dated 20-4-4 of the Manager of the Reserve Bank of India(Copy enclosed). In view of the fact that the interest that will be accrued will not exceed Rs.48/- on the above amount at 3% per annum, the amount payable in shape of scholarship will have to be limited to Rs.28/ after setting a part Rs.20/- for ~~cost~~ each prize.

3. Separate apportionment of the above fund for prize schol ship and to frame separate scheme for each, seems unnecessary as there is every likelihood of the interest to be accrued thereby, may fall short of the required quota of each year. A new clause (clause 14) is proposed to be added to enable the committee to increase the amount of scholarship whenever the annual income on the endowment exceeds Rs.48/-

4. I request you to send your opinion as early as possible to enable me to address Government in the matter as expeditiou as possible.

The alterations indicated in red ink on the draft notifications may be made.

2 Clause 2 of the scheme in draft notification II has been slightly modified so as to make it clearer.

3 When there is a decrease in the annual income from the endowment, the decreased income is divided between ~~before~~/the prize and scholarship in the proportion of 2:3 (see clause 4). But where there is an increase in the income, clause 15 enables the Committee to increase the amount of the scholarship only. It is presumed that this is intentional.
